I'm human

Lord of the flies free ebook for kindle

Kindle gibraltar.

William Golding, born in Cornwall, England, began writing at age seven. He studied natural sciences and English at Oxford, publishing his first book before finishing college. During WWII, he served in the Royal Navy during the Normandy invasion. His notable works include Lord of the Flies, The Inheritors, and Rites of Passage, which won the Booker Prize. Disguised as children, these boys replicate the worst of their elders' heritage of ignorance, violence, and warfare - this time, in a primitive struggle for survival on a tropical island. The novel begins after a plane crash leaves a group of English schoolboys, aged six to twelve, stranded with no adult supervision. Initially, they form their own society, but their experiment quickly descends into chaos and death. The story explores the fine line between innocence and savagery as the boys' struggle for survival evolves from a battle against nature to one against their own primitive instincts. William Golding's portrayal of this collapse of social order is both vividly realized and riveting, making it one of the most unforgettable works in modern fiction. Golding himself narrates the story, bringing an intimate, grandfatherly tone to the work. The audiobook also includes background on how he conceived the book, as well as a rebuttal to critics about its meaning. Deep within the wilderness, a sense of lawlessness takes hold, as people are free to act however they please. But with chaos unfolding and eerie howls haunting the night, the thrill of adventure seems more like a distant dream than a realistic hope. Meanwhile, William Golding, born in Cornwall, England, began writing at just seven years old. Though he initially pursued natural sciences at Oxford, his true passion lay in English literature. His first published work was a collection of poems, and later, during World War II, he served in the Royal Navy, participating in the Normandy invasion. Golding's notable novels include Lord of the Flies, The Inheritors, The Free Fall, Pincher Martin, The Double Tongue, and Rites of Passage, which earned him the Booker Prize.
